

Software Manual

PolyQuiz

Prepared By: __team.js__

Date: _____12/05/20_____

Test our project

You can test our product without installing it on: <http://polyquiz.me/>

Requirements

* node.js

Installation instructions

Open **command prompt** in the directory "**front-end**" and follow the procedure bellow. When it's over, start again in the repertory "**back-end**"

Then, **install dependencies** (*need an internet connection*) by running:

```
npm install
```

Install **angular/cli** using:

```
npm install -g @angular/cli
```

Launch the server (do it in front end folder & in back end)

```
npm run start
```

You can now access to the server on <http://127.0.0.1:4200/>.
